“

CHILDREN NEED THE **Freedom** TO appreciate
THE INFINITE RESOURCES OF THEIR **HANDS**,
THEIR **EYES**, AND THEIR **EARS**,
THE RESOURCES OF **FORMS**,
MATERIALS, **SOUNDS**, & **COLORS**.”

Loris Malaguzzi, Founder – The Reggio Emilia Approach

We cordially invite you to witness a grand exhibition display of our students' Project Work and encourage their thinking and efforts.

Preschoolers' Exhibition Display

The exhibition will display the processes of exploration done by children during their research projects on colours, textures, hand-made paper and weaving craft. Other forms of expression on display will include Children's Anecdotes, Drawings, Paintings, Clay Models, Stories, Rhymes, Photographs, Videos, Interactive Activities, and much more...

Class 1 to Class 4 - Exhibition Display

The exhibition will display children's art works, autobiographical books, sketches, photographs and self-reflections from their multiple intelligences-based exploratory projects on 'Lippan Art' and 'Personal History.'

"Science and art tend to coalesce in aesthetics, plasticity and form. The greatest scientists are artists as well." – Albert Einstein

ABOUT THE PROJECTS

Research Projects on “ART-IMMERSION” by Redbricks Early Years Program and Pre-school Children

Over a period of 5 weeks, children explored Art and Art-making through design thinking and inquiry based learning processes. Children from the Early years program explored various elements of art such as colours and textures, while children from the Kindergarten program explored paper making and weaving craft. They went through a detailed project- based learning methodology that encompassed detailed research investigation, raising of questions, multiple interactions and field visits, culminating in the creation of innovative models from their own imagination and thought.

Interest Centers Work on ‘Lippan Art’ and ‘Personal History’ by Redbricks Primary School Students

Redbricks School students from Class 1 to Class 4 (in mixed age groups) undertook two interest centers projects inspired from the Multiple Intelligences framework. The projects focused on the Visual Spatial and Linguistic Intelligences through ‘Lippan Art’ and ‘Personal History’ respectively. Students of Class 1 and 2 took up the exploratory study of Lippan work which is a traditional art form of Gujarat. Students of Class 3 and 4 explored their own Personal histories in the process of creating their own autobiographies.

“Creativity is now as important in education as literacy.” – Sir Ken Robinson

This is our wall hanging with so many colorful things.

Wow, the lion's hair is so soft to touch. We had fun pasting it.

An orange dinner set we made with paper clay.

Here we go 'up & down' to make our hand woven carpet.

Learning the traditional art of Lippan using clayey soil and dung.

A self reflective journey of their past and their own experiences.

An **Abellon Group** Initiative
